1 of 1 review helpful EXPLAINING THE ORIGINS OF HATE AND RAGE IN CHILDREN By Michael Tsarion
Hate is older than love Sigmund FreudA masterly analysis and explanation of the psyche of children appropriately focusing on the rage harbored within the average child against the parents and against society This is the primary virtue of this fine work which is a must read for anyone interested in understanding the This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate Language Notes Text English German translation
