By Katherine Davis Fishman : Behind the One-Way Mirror: Psychotherapy and Children narcissistic people are usually waiting for their turn to make themselves the subject of conversation and have little real interest in other people jeepneys former military jeeps converted into buses parked in angeles the best way to avoid the heat here is on the back of a jeepney former military jeeps Behind the One-Way Mirror: Psychotherapy and Children:

0 of 0 review helpful same as 1995 By bola FYI as near as I can tell this is the same book as the 1995 version Good overview of child therapy but a bit dated now There isn t a child alive who isn t troubled at times Parents teachers

caregivers and all those who work with children constantly encounter behavior that puzzles disturbs or actively alarms them Confronted with a troubled child how does one assess the seriousness of a problem Determine whether it's just a phase or the real thing Whether professional help is needed and what form it should take How does one find an appropriate therapist What actually happens Richly informative and warmly written Ms Fishman gives us under one cover both a valuable resource and a fascinating narrative She writes without bias unless you call bias an obvious devotion to children An excellent book Edward M Hallowell M D
