significant scientific progress has been made in the field of infant and preschool psychiatry over the past 2 decades although this is a field with a long and rich psychiatric services welcomes new reviewers professionals in the mental health disciplines who are qualified to review are invited to contact the editor lisa b The Handbook of Child and Adolescent Systems of Care: The New Community Psychiatry:

The Handbook of Child and Adolescent Systems of Care is a groundbreaking volume that presents the latest thinking in the field of child and adolescent psychiatry written by a stellar panel of child and adolescent psychiatrists. The Handbook shows that the best way to help at risk children is not in isolated doctor and patient treatment rooms but with community based systems of care SOC that incorporate an interagency integration of services based on a cli I consider the Handbook of Child and Adolescent Systems of Care edited by Drs Andres Pumariega and Nancy Winters an outstanding contribution for its clarity depth and breadth in the topics covered. They have assembled an impressive list of chapter a
