By Anton Dosen, Ellen Leibenluft, Kenneth Day : Treating Mental Illness and Behavior Disorders in Children and Adults with Mental Retardation

Treating Mental Illness and Behavior Disorders in Children and Adults with Mental Retardation:

Since the 1970s the development of normalization philosophy and the implementation of community care policies have highlighted the nature and treatment of psychiatric and behavior disorders in people with mental retardation and rekindled the interest of scientists psychiatric practitioners and service providers. With these changes has grown a substantial body of new research and information on the phenomenology epidemiology classification and clinical features. I was quite impressed with this book which has an unusually broad theoretical scope. As well the authors impress me as not just knowledgeable but passionate about their areas of expertise which makes the book a compelling read. Doody Publishing Au
