From Ingramcontent : Explorations in Child Psychiatry anger hostility and anxiety are all related and may or may not be destructive violence of all types is today quite frequent and greatly problematic both beginnings school and child development center takes a distinctive and evidence based approach to early childhood education and learning

for children aged three Explorations in Child Psychiatry:

It is a great pleasure for me to write a foreword to this fine work by many different collaborators under the aegis of my friend and one time colleague in Geneva Dr E James Anthony because it represents a collective effort toward a goal that today seems very necessary yet difficult to attain. This goal is the synthesis of developmental psychology with all the other aspects of child psychology into a science of ontogenetic development from birth to maturity encompassing
