0 of 0 review helpful Came as expected By Buck Had to buy it for a class Came as expected in great condition My book actually looks nicer than a book bought brand new off of another site This practical manual presents detailed step by step instructions for assessing and teaching key parenting skills proven to reduce or prevent child maltreatment It is based on 20 years of research and practice with over 1500 families at risk for child physical abuse or neglect The book shows how to help parents improve interactions with children create safer home environments and respond effectively to child health care needs It is filled with concrete example This is an excellent resource for intervening with maltreating families Lutzker and Bigelow have been developing and testing interventions for two decades and have established a rich database for letting us in on what works and what does not The book
