By James A. Bourgeois, Robert E. Hales, Julie S. Young, Stuart C. Yudofsky : The American Psychiatric Publishing Board Review Guide for Psychiatry (Concise Guides) related links more about identity and access management openathens provides a range of products and services that enable secure access to resources through recommended reading for clinical assessment and management general texts on suicide legal and ethical issues for suicide preventionschoolsspecial populations The American Psychiatric Publishing Board Review Guide for

Psychiatry (Concise Guides):

13 of 14 review helpful Not at all suitable for MOC exam in Psychiatry By FA Dalpina This book by Bourgeois et al is not useful at all if the buyer's intention is to succeed in the MOC exam in Psychiatry It is written in a haphazard fashion Some topics are given too much space and others are on the border of being neglected There does not seem to be any rhyme or reason to this selective pattern That makes this book cumbersome It is a daunting task to distill a psychiatrist's education and training into a single comprehensive resource but that is precisely what The American Psychiatric Publishing Board Review Guide for Psychiatry does to thoroughly prepare candidates taking the American Board of Psychiatry and Neurology Examination in Psychiatry The book's organization mirrors both clinical practice and the examination itself with a review of basic sciences followed by chapters on In this welcome volume Dr Bourgeois and his colleagues provide every psychiatrist facing certification and recertification by the American Board of Psychiatry and Neurology an outstanding resource for study and frankly a way to desensitize to this style of
