1 of 2 review helpful Title Doesn't Match Book By Ida Mae I have a son with Asperger's and he also has Tourette's. I bought this book based on the title as we deal with a lot of behavior and learning issues and I home school him. I was expecting to get some advice and explanations for the problems we deal with but it's just a bunch of research and much of it is repeated from chapter to chapter. I'm very disappointed in this volume. It provides research-based practical information on managing the challenges that Asperger syndrome (AS) presents in everyday life and in the classroom. Current knowledge is reviewed on the core learning, behavioral, emotional, social, and communication difficulties associated with this complex disorder.
